a day 365 days a year callout service and a Free
Security Survey

Who Are Safecell Security?

Safecell Security is a Bury based company who specialise in the electrical security industry. We design, install and maintain all electrical security systems ranging from an audible only Intruder Alarm to an emergency response Fire Alarm.

Safecell was set up in 2001 and has been progressing ever since. No matter how big or small your project is Safecell will be able to take care of all of your requests. Safecell's services take on anything from a small house to vast football stadiums.

Safecell provides a comprehensive range of Security Solutions, expertly designed to meet any requirements your business or home may need. Once we have assessed exactly what your security needs entail, we then proceed to assemble a combination of the appropriate services in a calculated, and tailor made package.

We can save UK businesses a vast amount of money each year by using advanced, integrated security solutions. Couple this with state of the art technology to create bespoke fire and security systems that provide our customers with the security, protection, and peace of mind they need.

You simply cannot afford not to have the proper security protection. With competitive pricing and a service geared to the needs of your business or home, you can afford the professional level of service Safecell are proud to provide.

Safecell have been trading for many years and we specialise in the design, installation, maintenance and commissioning of Intruder Alarms, Fire Alarms, CCTV, Access Control and Warden Call Systems to domestic, commercial, industrial and high security sites across the UK.

As with all of our services, Safecell will attend site and produce a full site survey in order to identify any concerns or courses of action required and from there we will produce the quotation. This allows us to install the perfect tailored system to secure your company. We will always work around yourself and will attend site when best for you.

There are several important reasons why you should use an 'Approved Company'. The most important being that you can be assured that all work and procedures are being legally carried out, and that they comply with the latest British Standards. All insurance companies will advise you to use an Approved Company such as ourselves. Safecell are 'SSAIB', 'BAFE', 'FIA' and 'Safecontractor' approved. All of our staff are police vetted and security screened.

In 2013 we bought our now sister company Authorized Access. As Sister companies we have been able to assist many commercial and domestic properties in meeting their security requirements. Giving them their complete security solution.

Who Are Authorized Access?

Authorized Access is a Bury based company who specialise in the Physical security industry. We design, install and maintain all Physical systems ranging from, Keyed-a-like locks to fully Automated Gates.

Authorized Access was bought by Safecell in 2013. As Sister companies we have been able to assist many commercial and domestic properties in meeting their security requirements. Giving them their complete security solution.

Authorized Access are an MLA (Master Locksmiths Association) and UKLA (UK Locksmiths Association) approved company and have been established for over 30 years. Everybody wants the best security, but as much as your business or your home is unique, so are your security needs. At Authorized Access, we can carry out our SRA (Security Risk Assessment) in order to evaluate the best products appropriate for your needs. The solutions we can create consist of anything from a simple Cylinder upgrade to a Steel door, or from a Safe to a Safe Room. Although we are based in Bury we do cover the North West.

Authorized Access only supply and install British Standard, PAS24 and TS007 Products, we believe there should be no compromise when it comes to YOUR Security. With our Manchester Locksmiths Trade Counter and Show Room you can visit us and discover how to upgrade your security, keeping your costs down and within your own budget. From a Padlock to a Safe we can direct you to the right product for whatever you need to secure, whether it be your home or a bicycle, to a car or even a barge home!

Authorized Access can also provide lock repairs from UPVC, Wooden and composite doors whether it's a mechanism replacement or a mortise lock change we provide this service to domestic and commercial properties across Bury and North West. From just a brief description over the phone we can determine what is needed and provide you with an estimation of the work required. So whether you are based in Bury or anywhere else in the Northwest you will get a price. In some cases we can even hear what the fault is over the phone.

Trusted and vetted

“Our Business Is Protecting Your Business”

“As Insurance Brokers specialising in Commercial Insurance we are often asked to recommend a Security Company who are able to install and Maintain Alarm Systems. Recommending organisations in such circumstances can often lead to problems when the company concerned do not meet the expectations of our customers. However, we do not have any reservations in recommending the Safecell Security Group. We have placed them in touch with many of our Commercial Policyholders and the feedback from them has been nothing but complementary.

Their work is of the highest order from speed of initial installation and the little amount of fuss involved in carrying out the annual maintenance, to providing useful advice on securing the property properly. Additionally, for an accredited Security Company their pricing structure is competitive. I have absolutely no hesitation in recommending the services of The Safecell Security Group to anybody who wishes to protect their property.” Munro Greenhalgh Insurance Brokers
